Oppose	17%	20%	12%	18%
Unsure	17%	20%	11%	19%
2. Would you be more or less likely to support expanding Medicaid to able-bodied adults if you knew that Wyoming already spends nearly \$300 million on Medicaid, and expansion could increase this spending?				
More Likely	33%	12%	68%	36%
Less Likely	51%	77%	12%	41%
Unsure	16%	11%	20%	23%
3. Would you be more or less likely to support expanding Medicaid to able-bodied adults to include working-age, able-bodied adults if you knew that every state that has expanded Medicaid has gone over their projected budget?				
More Likely	30%	9%	53%	47%
Less Likely	56%	81%	29%	38%
Unsure	13%	10%	18%	15%
4. Would you be more or less likely to support expanding Medicaid to able-bodied adults if you knew that the federal government already pays 100 percent of the cost of a private insurance plan for the same group of adults as long as they work part-time?

Results for this poll are based on automated telephone interviews conducted among a statewide sample of 516 likely Wyoming voters. Data for this survey research was collected by Cor Services, Inc.

Interviews were conducted via a computer-assisted telephone interviewing system utilizing techniques designed to achieve the highest possible respondent cooperation.

The surveys were conducted June 11-17, 2021. The margin of sampling error is plus or minus 4.31 percentage points. The margin of sampling error may be higher for certain subgroups. Results presented may not always appear to total 100 percent due to rounding.

Data was sampled using weighted demographic information from the U.S. Census Bureau's Current Population Survey Voting and Registration Supplement and the state election authorities. Demographic information for actual voters in past elections were used to construct sample target weights.

The Foundation for Government Accountability paid for all costs associated with this survey.
