

2021 NATIONAL Election Office Funding Poll

	ALL VOTERS	GOP	DEM	IND
1. Would you be more or less likely to support private funding of government offices that oversee elections if you knew that allowing this funding gives out-of-state groups the ability to influence local voting patterns?				
More Likely	4%	3%	9%	0%
Less Likely	83%	89%	78%	81%
Unsure	13%	8%	13%	19%
2. Would you be more or less likely to support private funding of government offices that oversee elections if you knew that these financial contributions could result in corporations having more influence in election outcomes than voters do?				
More Likely	6%	4%	8%	5%
Less Likely	83%	86%	78%	85%
Unsure	11%	10%	14%	10%
3. Would you be more or less likely to support private funding of government offices that oversee elections if you knew that allowing the funding could result in sensitive voter information being shared with partisan political groups?				
More Likely	5%	3%	5%	7%
Less Likely	73%	76%	77%	65%
Unsure	22%	21%	19%	28%
4. Would you be more or less likely to support private funding of government offices that oversee elections if you knew that the private funding can be used to increase voter turnout for a particular political party?				
More Likely	8%	4%	10%	10%
Less Likely	73%	76%	72%	72%
Unsure	19%	20%	19%	18%

Results for this poll are based on automated telephone interviews conducted among a nationwide sample of 516 likely voters. Data for this survey research was collected by Cor Services, Inc.

Interviews were conducted via a computer-assisted telephone interviewing system utilizing techniques designed to achieve the highest possible respondent cooperation.

The surveys were conducted October 3–6, 2021. The margin of sampling error is plus or minus 4.31 percentage points. The margin of sampling error may be higher for certain subgroups. Results presented may not always appear to total 100 percent due to rounding.

Data was sampled using weighted demographic information from the U.S. Census Bureau's Current Population Survey Voting and Registration Supplement and the state election authorities. Demographic information for actual voters in past elections were used to construct sample target weights.

The Foundation for Government Accountability paid for all costs associated with this survey.
