

2022 NATIONAL Medicaid Poll

	ALL VOTERS	GOP	DEM	IND
1. Would you support or oppose verifying whether an individual is truly eligible for Medicaid prior to approving them for benefits?				
Support	59%	71%	51%	56%
Oppose	14%	10%	20%	12%
Unsure	27%	19%	29%	32%
2. Would you support or oppose cross-checking Medicaid records against existing state and federal databases such as death records, residency records, and employment records to help ensure applicants and enrollees are truly eligible for the program?				
Support	68%	80%	63%	61%
Oppose	14%	10%	20%	11%
Unsure	18%	10%	17%	28%
3. Would you support or oppose penalizing hospitals if they repeatedly enroll individuals in Medicaid when they are not eligible for the program?				
Support	52%	60%	43%	54%
Oppose	22%	24%	24%	18%
Unsure	25%	16%	32%	28%
4. A 2021 federal bill that gave states additional funding for Medicaid prohibits them from removing anyone from their Medicaid programs, even if the individuals are not eligible for benefits. Do you think the federal government should require states to keep people on Medicaid when they are not eligible for the program?				
Yes	21%	19%	24%	18%
No	62%	70%	54%	63%
Unsure	17%	11%	22%	19%

Results for this poll are based on automated telephone interviews conducted among a nationwide sample of 512 likely voters. Data for this survey research was collected by Cor Services, Inc.

Interviews were conducted via a computer-assisted telephone interviewing system utilizing techniques designed to achieve the highest possible respondent cooperation.

The surveys were conducted February 5-8, 2022. The margin of sampling error is plus or minus 4.33 percentage points. The margin of sampling error may be higher for certain subgroups. Results presented may not always appear to total 100 percent due to rounding.

Data was sampled using weighted demographic information from the U.S. Census Bureau's Current Population Survey Voting and Registration Supplement and the state election authorities. Demographic information for actual voters in past elections were used to construct sample target weights.

Opportunity Solutions Project paid for all costs associated with this survey.
